SUMMARY

Frontend developer skilled in React, JavaScript, Tailwind, and state management. Experienced in building functional products, dashboards, and hackathon-ready prototypes.

SKILLS

HTML, CSS, JavaScript, React, Redux Toolkit, Context API, Tailwind CSS, Git

PROJECTS

PromptVault – React, Redux Toolkit, Tailwind

Live: prompt-vault-olive.vercel.app | Code: github.com/rachittaneja56-max/Prompt-Vault

• Prompt storage dashboard with global state via Redux Toolkit.

• Context-based authentication and modular UI components.

Currency Converter – React, Custom Hook

Live: currency-converter-ecru-one.vercel.app | Code: github.com/rachittaneja56-max/currency-converter

• Fetches real-time exchange rates using API calls.

• Built reusable custom hook for data handling.

To-Do List – JavaScript

Live: to-do-list-git-main-rachit.vercel.app | Code: github.com/rachittaneja56-max/To-do-List

• Multi-state task manager (Pending, In-Progress, Completed).

• Category-based filtering and clean vanilla JS implementation.

SamajhLo DBT – JavaScript (SIH Prototype)

Live: samajhlo-dbt-demo.vercel.app | Code: github.com/rachittaneja56-max/SIH-SAMAJHLODBTPROTOTYPE

• Awareness platform for DBT-linked accounts developed for SIH internal round.

ACHIEVEMENTS

• Team Lead – Smart India Hackathon Internal Round

• 3rd Place – College Ideathon (CafeMate)

• McKinsey Forward Program

• GFG AI Tools SkillUp Program

EDUCATION

JC Bose University of Science and Technology, YMCA Faridabad — B.Tech CSE (Ongoing)
